### What is Medical Tourism

India has one of the best qualified professionals in each and every field, and this fact has now been realized the world over. Regarding Medical Facilities India has the most competent doctors and world class Medical Facilities. With most competitive charges for treatment, India is a very lucrative destination for people wanting to undergo treatment of certain medical problems who do not need immediate emergency treatment.

India offers World Class Medical Facilities, comparable with any of the western countries. India has state of the art Hospitals and the best qualified doctors. With the best infrastructure, the best possible Medical facilities, accompanied with the most competitive prices, you can get the treatment done in India at the lowest charges. A patient will come to India where he will undergo medical treatment and along with that we will show him the Indian tourist and pilgrim destinations, as and when advised by the Doctors. The whole thing would save him a lot of money and he will get to discover India at the same time. We assure that we provide the best medical and travel facilities during for you in India.

Get your medical treatment done in India at a fraction of the cost at which it is done abroad - in Europe or America. Besides providing you medical treatment, we will also show you different tourist destinations in India. The complete package will cost you less that what you would have to pay for the medical charges alone, in other European, Middle East or American countries.

### Why India ?

#### Why Choose India as a medical tourist?

India has one of the best qualified professionals in each and every field, and this fact has now been realized the world over. Regarding Medical Facilities India has the most competent doctors and world class Medical Facilities. With most competitive charges for treatment, India is a very lucrative destination for people wanting to undergo treatment of certain medical problems who do not need immediate emergency treatment.

India offers World Class Medical Facilities, comparable with any of the western countries. India has state of the art Hospitals and the best qualified doctors. will come to India where he will undergo medical treatment and along with that we will show him the Indian tourist and pilgrim destinations, as and when advised by the Doctors. The whole thing would save him a lot of money and he will get to discover India at the same time. We assure that we provide the best medical and travel facilities during for you in India.

### **Our Services**

We are pleased to introduce Medical Tourism in our services. Hope we will be able to satisfy you in this service also as we did in the others.

For long we have observed that dishonest touts and lack of adequate knowledge are misleading the middle class patients. Thus had been unable to get proper treatment. We feel morally responsible to guide them properly and assist them within our limits through our services. This is the reason why we initiated "Medical Tourism."

#### **Our motto is to:**

1. Enrich the patients with proper information.
2. Communicate to the doctor/ hospital on behalf of the out station patients.
3. Arrange diagnostic services.
4. Fix up doctor's appointment.
5. Book the proper treatment package as per doctor's advice.
6. Arrange to & fro transfers from the home country of the patient.
7. Arrange comfortable accommodation for the relatives accompanying the patient.
8. Organize post operation relaxation or rejuvenation packages.
9. Follow up linking between the patient and the doctor.

May we, therefore, have the privilege in submitting our modest approach before you to please get in touch and patronize us by your valued co-operation and support in future as we used to get always we launched a new product.

### **Cosmetic Treatment Packages**

A new dimension of the medical field taking off in India is cosmetic surgery which utilises some of the latest techniques in corrective procedures. Some disfigurations corrected include hair restoration (hair implants, hair flaps, and scalp reductions), rhinoplasties (reshaping or recontouring of the nose) staling of the aging process (face lift, cosmetic eyelid surgery, brow lifts, sub-metal lipectomy for double chin), dermabrasions (sanding of the face), otoplasty for protruding ears, chin and cheek enlargement, lip reductions, various types of breast surgery and reconstruction and liposuction.

Non-invasive surgical procedures like streotactic radio surgery and radiotherapy for brain tumours are practised successfully.

## India Health Medical Packages

### Health Check Up

Many common and life-threatening conditions can be treated successfully if detected early. Many leading hospitals in India have health check-up programmes that screen every part of the body meticulously and professionally. A proper health check-up scans your bio-history, interprets signals and provides the opportunity for the proverbial "stitch in time". A heart check-up constituting of echocardiography, consultation by a senior cardiologist, blood test, general test and haemogram can be done at any of the leading cardiac hospitals or private clinics.

A comprehensive health check-up contains the following tests :

- \* **Doctor consultation and full medical examination**
- \* **Blood test**
- \* **Complete Haemogram (hb, TLC, DLC, ESR, Haematocrit, Peripheral Smear)**
- \* **Blood Group (ABO, RH)**
- \* **Blood Sugar**
- \* **Blood Urea**
- \* **Serum Uric acid**
- \* **Serum Creatinine**
- \* **Lipid Profile**
- \* **Urine and Feces Examination**
- \* **X-Ray Chest PA**
- \* **ECG**
- \* **Exercise Stress Test (TMT)**
- \* **Stress Screening by Psychologist**
- \* **Eye Examination**
- \* **Gynaecologist Consultation and Pap Smear Test**
- \* **Post Check-up consultation**
- \* **Optional Tests**

**Some additional tests may be advised by your doctor, which may include :**

- \* **Pulmonary Function Tests**
- \* **Ultrasound Screening for the Abdomen**
- \* **ENT Examination**
- \* **Screening for Liver Disease**
- \* **Screening for Thyroid Disease**
- \* **Hepatitis B Screening to Assess Immunity and for Detection of Carriers**
- \* **A test for AIDS can also be requested**
- \* **Screening for Kidney Disease**

**Note :** These test can be done at any leading hospital, private and public. Many pioneering hospitals have comprehensive health check-up packages.
